IEEE Oceanic Engineering Society

OCEANS CONFERENCE & EXPOSITION 2026 MONTEREY, CA SEPTEMBER 21-24

General Poster

Section 1: Instructions

Subsection 1: Sizes

OCEANS accepts posters measuring up to 72 "× 48" (this template) and 48"×36" as the minimum dimensions. Please use the corresponding template for your chosen size. A separate 48"×36" template is provided.

- Keep a small margin from edge, most plotters can't print all the way to the paper's edge.
- Recommended body text: no smaller than 24pt at final size.
- Section headers: 40–44pt; subsection headers: 34–38pt.
- Keep high-resolution graphics, check for pixelation by zooming to 100%.
- Aim for roughly 20–25% text and 40–45% graphics/figures. Posters are a visual medium.

Placeholder for images

Subsection 2: Layout

The poster session will be crowded, design your layout in columns so attendees can read top-to-bottom, left-to-right, without needing to backtrack.
Use photos, figures and tables to tell the story of your work. Minimize dense paragraphs.
Include a QR code linking to your paper, video or project page.
You are welcome to change the layout of this template to fit your work.

Section 2: Results

- Include figures than are in your paper, this is your chance to show data or diagrams that didn't fit the page limit. Use large, legible axis labels and legends (18pt minimum).
- Avoid simply pasting paper figures at their original small size; re-export or redraw them at higher resolution so they read clearly from 4–6 feet away.

Placeholder for images

Section 3: Printing

Before sending to print:

- Zoom to 100% in PowerPoint and check that all text and images are sharp, not blurry or pixelated.
- Confirm your slide size (File > Page Setup) matches what you plan to print.
- Export as PDF for printing, this preserves fonts and avoids formatting shifts on different machines.

Where to print in Monterey:

Print Shop	Phone	Max Width	Notes
Minuteman Press	831-373-1822	Any size × 48"	Email files directly; ~2 day turnaround
ARC Documents	831-646-1170	Any size × 36"	Specializes in research poster printing; upload via website; near airport
Copy King	831-373-1822	Up to 36" × 48"	
FedEx	831-373-2298	Up to 36" × 48"	
Staples	831-393-2102	Up to 36" × 48"	
UPS Store	831-643-1655	Up to 36" × 48"	

Section 4: Other sections

Subsection 1: Logos, QR Code and Images

- Replace "Institution Logo Here" and "Other logos" placeholders with your university/lab and funding-agency logos. Keep logos small and consistent in height so the row looks uniform.
- The QR code should link to your full paper, a project webpage, or a video. **Test the link before printing.**
- **N**umber or letter your figures and refer to them in the text ("Fig. 1 shows...") just as you would in the paper.

Placeholder for images

Subsection 2: Title and Authors block

Replace the placeholder title with your paper's title, in Title Case, no smaller than 44pt. List authors with superscript numbers linking to affiliations below. Keep author affiliations to institution/university and department only , no full addresses.

Summary or Conclusion

Summarize your key contributions in 3–5 bullet points.
Include links to code, datasets, or extended video if available.
